PRINCE2 AGILE FOR THE ORGANIZATIONS AND PROFESSIONALS OF TODAY

PRINCE2 Agile has been refreshed to meet the evolving needs of today's project environments, **blending the structure of PRINCE2 Project Management with the agility modern organizations demand.**

Driven by rapid technological changes and growing agile adoption, the update ensures teams can **stay adaptable without compromising on governance.** Based on industry feedback and current research, it offers clearer guidance, greater flexibility, and a stronger focus on agile leadership and performance.

WHAT'S NEW?

Expanded agile integration:

Deeper focus on agile frameworks and their practical application, with expanded advice on choosing the right agile approach based on project needs.

Stronger emphasis on people and the agile mindset:

Emphasizes the growing importance of collaboration, empowerment, and team dynamics—highlighting 'being agile', as agile is as much about mindset and culture as it is about process.

Introduction of agile leadership:

New guidance on agile leadership roles, responsibilities, and mindset, ensuring leaders can effectively support agile teams while maintaining governance.

Agile project performance:

Greater emphasis on measuring and improving agile project success, with updated performance targets aligned to PRINCE2 Project Management and guidance on managing agile teams within structured governance.

WHAT'S IMPROVED?

Tailoring for agility:

Expanded tailoring guidance helps apply PRINCE2 Agile across industries and structures, while remaining compatible with existing agile and project management methods.

Clearer language and structure:

PRINCE2 Agile has been streamlined with clearer, more accessible language—making it easier for a wider range of professionals to understand and apply agile principles, no matter their background or experience.

Better alignment with PRINCE2 Project Management:

Combines key updates from PRINCE2 Project Management (version 7) with agile adaptability, to balance flexibility and project governance, ensuring value delivery amid changing requirements.

Updated agile guidance:

Includes the latest agile trends like scaling agile, with examples, scenarios, and clear tailoring guidance to boost practical usability.

The updated PRINCE2 Agile ensures that professionals and organizations can leverage agile methodologies while maintaining structured project governance. It is more than just agile project management.

PRINCE2 Agile is a facilitator for agile working to enable continuous delivery of value.

PeopleCert is the global leader in the certification industry, with a product portfolio of global best practice frameworks and certifications including ITIL® and DEVOPS INSTITUTE® for IT & Digital Transformation, and PRINCE2® for Project, Programme & Portfolio Management, as well as language qualifications through LANGUAGECERT®.
